## Chronic Absenteeism in 2022-23

Some encouraging signs but it will take a long-term investment and experience to recover

## Introductions

## Takeaways for today

- Chronic absenteeism is at an all time high across the nation
- Due to the volatility of the last two years, good habits have been forgotten
- Focus on daily attendance is essential for recovering from the pandemic attendance is \#1 predictor for student success
- Strong systems are required to alleviate staff burnout
- Proactive communication is essential to reconnect with families and students

## Demographic Breakdown of Dataset
